Hawker Pacific Congratulates Beechcraft On Resurgent Results: Highlights Momentum In ASEAN

As Beechcraft Corporation announced a 75% increase in its second quarter 2013 deliveries year on year, Hawker Pacific, leading aircraft sales and product support company in Asia, Pacific and the Middle East, congratulated the manufacturer on the significant results and indicated that market sentiment for Beechcraft aircraft in the Asia Pacific region continues to gain momentum.

According to Hawker Pacific's Senior Vice President, Aircraft Sales & Flight Services Group, Tony Jones, Beechcraft continues to exceed targets and expectations because of the unprecedented quality of all aircraft models it manufactures.

"We're thrilled, yet not surprised, by these results. There are always going to be customers unwilling to compromise on quality when searching for their new aircraft and thus we're expecting King Air, Baron and Bonanza sales momentum to remain solid in the region."

"Only recently, Beechcraft handed over the keys to its 4,000th model 36 Bonanza – an unquestionably robust aircraft that holds a special place in the heart of aviation enthusiasts. The latest Bonanza, the advanced G36 model, has been a great product for the region, with some of the highest volume of sales in the world going into our market."

"Beechcraft hit yet another landmark only nine months ago too, with delivery of the 7,000th King Air, a significant percentage of which have been sold by Hawker Pacific into the Asia Pacific region over the years. We're backed not only by the quality and performance of the aircraft, but also the vast and wide support network that we provide to our customers."

Hawker Pacific is Beechcraft's Authorised Sales and Service Representative for South-East Asia, Australia, New Zealand and the Pacific with a partnership that continues to build on the strong foundations established at the beginning of their relationship 34 years ago.

Notes to Editor:

1. **Hawker Pacific** is a market leader in integrated civil and military aerospace sales and product support in South East Asia, Australia, the Pacific and the Middle East and is one of the largest independent companies of its type in the region with nearly 600 employees. The company's Asian operations include established businesses in Singapore, China, the Philippines, Thailand, Indonesia and Malaysia.

Hawker Pacific represents some of the world's leading aircraft manufacturers, including Beechcraft Corporation, Bell Helicopter and Diamond Aircraft. Hawker Pacific is also a primary dealer in used aircraft with networks to source, acquire and trade aircraft globally.

Hawker Pacific is also Australia's premier fixed base operator (FBO) with a network of facilities in Sydney, Brisbane, Cairns, Singapore, Perth, Shanghai and Malaysia. The company's FBOs offer VIP services and crew facilities, 24/7 on demand aircraft charter from a modern aircraft fleet, flight operations and total aircraft management.

Hawker Pacific's product support activities include MRO, structural modification and support services to a wide range of fixed and rotary wing aircraft for corporate, charter, defence and special mission operators throughout the region. Other services include

aircraft and engine maintenance, repair and overhaul, special mission aircraft modifications, design engineering, avionics parts and service, plus the provision of spare parts, exchange rotables and equipment sales.

Hawker Pacific holds the highest certification levels and accreditations including CASA, EASA and FAA certification, ISO 9001 Bureau Veritas accreditation, plus OEM customer / airworthiness approvals by 26 major global suppliers and civil and military regulatory authorities. These set the company apart from most others operating in the region, giving it a capacity to deliver complex special mission modifications for both civil and military customers.

The company's customers include airlines, commuter, corporate, general aviation, rotary wing and special mission operators, governments and the military.

2. Beechcraft Corporation designs, builds and supports versatile and globally renowned aircraft, including the King Air turboprops, piston-engine Baron and Bonanza, and the T-6 trainer and AT-6 light attack military aircraft. Its 5,400 highly skilled employees are focused on continuously improving the company's products and services which are sold to individuals, businesses and governments worldwide. In business since 1932, Beechcraft has built more than 54,000 aircraft and more than 36,000 continue flying today. It leads the industry with a global network of more than 90 factory-owned and authorised service centers. The company's headquarters and major manufacturing facilities are located in Wichita, Kan.
